

Support for the Neuromyelitis Optica Spectrum Disorder (NMOSD) Community

Founded in 2008 as a startup with only a handful of employees and no office space, Horizon is now a global biotechnology company dedicated to helping transform the lives of people impacted by rare, autoimmune and severe inflammatory diseases.

Our Dedication to People Living with NMOSD

With support built around the patient and their caregivers, we serve as a partner in their journeys, providing each person with access to a range of programs and resources.

Dedicated one-on-one support a Patient Access Liaison (PAL) who can provide patients with dedicated support and answer non-medical, logistical questions¹

Financial assistance in place so that, where eligible, cost is not a barrier for patients to receive our medicines²

Our Support and Engagement with the Community

We go beyond providing therapies, engaging with community organizations to listen, learn and provide resources and support that improve the experience of people living with NMOSD.

NMOwn The Path Forward | [NMOwnThePath.com](https://www.NMOwnThePath.com)

website and Facebook page created with guidance from the NMOSD community to provide education and inspiration for people living with NMOSD.

Our Commitment to Innovation

We embrace our responsibility to continually discover and deliver new solutions for people living with NMOSD, partly through collaborations with leading industry experts and organizations.

Our significant investments into the NMOSD treatment landscape and community include:

Research & development

in collaboration with researchers to advance scientific understanding of NMOSD

Manufacturing & supply

of a complex biologic

Sponsorship

of the development of the SPHERES registry to advance knowledge of NMOSD and treatment outcomes

¹Available to those prescribed a Horizon medicine

²Assumes utilization of Horizon Therapeutics financial support programs

NMOSD Support and Services

As part of our mission, we strive to improve the experience of living with a rare disease, including through support of many organizations that provide crucial programs and services for people living with NMOSD and other rare diseases.

Bromberg Translation and Telephonic Interpreting Services Program

BrombergTranslations.com

No-cost program to offer translation and telephonic interpretation for Spanish-speaking individuals and families impacted by specific health conditions.

Patient Advocate Foundation Rare Disease CareLine

RareDisease.PAFCareLine.org

Patient Advocate Foundation's Rare Disease CareLine provides support and assistance to patients with chronic, debilitating diseases to help access care and treatment recommended by their doctor. Case managers will help navigate roadblocks to access to care and affordability to Americans with chronic, rare and ultra-rare illnesses.

Financial Support

The Assistance Fund

TAFcares.org

The Assistance Fund is an independent charitable patient assistance organization that provides support for adults and children with rare and chronic diseases. The organization may help provide families with financial and travel assistance.

Community Organizations

The Guthy-Jackson Charitable Foundation
