

# Support for the UCD Community

At Horizon, we strive to make a powerful difference for patients, their caregivers and clinicians every day.

Founded in 2008 as a startup with only a handful of employees and no office space, Horizon now has over 1,200 employees focused on helping those impacted by rare and rheumatic conditions. Though we've grown, our patient-focused culture is no different today than it was when we started.

## Our Dedication to People Living with Urea Cycle Disorders

With support built around the patient, we serve as a partner in their journey, providing each person with access to a range of programs and resources.

**Dedicated one-on-one support** from a Patient Access Manager (PAM) who can help navigate coverage and what to expect with treatment<sup>1</sup>

**Financial support** and assistance in place so that, where eligible, cost is not a barrier for patients to receive our medicines<sup>2</sup>

**Access to genetic testing** to help physicians reach the right diagnosis faster, at no charge to patients, through our sponsorship of the Invitae UCD genetic testing program

**Connection to resources** for metabolite testing to identify important biomarkers, which help guide physicians' dosing decisions at no cost to patients through our sponsored Baylor Genetics testing program

## Our Support and Engagement with the Community

Through our engagement with the UCD community, we go well beyond providing therapies to deliver resources that help address the needs of those living with UCDs.

**UCD in Common**<sup>®</sup> website and Facebook page created with input from the UCD community to provide education and resources

**Low-protein cooking classes** specifically designed for people living with UCDs to test new recipes while cooking alongside chefs

### Live and virtual events

**UCD community events** hosted by Horizon to help connect the UCD community to one another while offering relevant education and resources

## Our Commitment to Research

We embrace our responsibility to continually discover and deliver new solutions for people living with rare and rheumatic diseases, partly through collaborations with leading industry experts and organizations.

### Our urea cycle disorder medicines

#### 12 clinical trials involving:

- **140** UCD patients
- **114** hepatic patients
- **170** healthy patients
- **\$17 million** invested in research of our UCD medicines since 2016

### Supporting external research

- **6 UCD-related research projects** led by academic institutions and other organizations funded by Horizon
- **\$3 million gift** to Children's National Rare Disease Institute to create Horizon Therapeutics Clinical Care Endowment – established an expert care team in rare disease

<sup>1</sup> Available to those prescribed with a Horizon medicine and have opted into the support

<sup>2</sup> Assumes utilization of Horizon Therapeutics financial support programs

## Urea Cycle Disorder Support and Services

As part of our mission, we strive to improve the experience of living with a rare disease, including through support to many organizations that provide crucial programs and services for people living with urea cycle disorders and other rare diseases.

### Financial Support

#### National Organization for Rare Disorders (NORD)

**Co-pay Program\*:** assists eligible individuals who have health insurance to cover health insurance deductibles, copayments and coinsurance costs associated with the care of chronic urea cycle disorders

**Medical Assistance Program\*:** assists eligible individuals who are uninsured or for whom coverage has been denied, with out-of-pocket costs for medical expenses

**Emergency Relief Program\*:** supports eligible individuals and/or families who need financial support when faced with limited resources to pay for unexpected or emergency non-medical expenses

**For information** about each of the above programs, send an email to NORD at [UCD@rarediseases.org](mailto:UCD@rarediseases.org).

*\*costs for medications are not eligible for NORD programs*

#### The Assistance Fund

[TAFcares.org](http://TAFcares.org)

The Assistance Fund is an independent charitable patient assistance organization that provides support for adults and children with rare and chronic diseases. The organization may help provide families with financial and travel assistance.

#### Good Days

[GoodDays.org](http://GoodDays.org)

Good Days works to improve the health and quality of life of patients with chronic disease, cancer or other life-altering conditions. The organization may help provide families with financial and travel assistance.
